Sharavan Mudaliar

+91 70215 64145 mudaliarsharavan@gmail.com LinkedIn GitHub Navi Mumbai, India

Profile Summary

MCA student (2026) skilled in data science, analytics, and AI/ML, with a record of applying technology for policy and social impact. Experienced in developing end-to-end data pipelines, performing EDA, building ML models, and generating actionable insights. Collaborated in academic teams to deliver project milestones within tight deadlines

Internship Experience

Data Science Intern — Suvidha Foundation Remote
Skill Development Internship Promotion Scheme *Oct 2025 – Present*

- Developing a complete NLP analytics system in Python, automating sentiment and topic analysis for customer feedback using spaCy, scikit-learn, and transformers (BERT).
- Building and validating hybrid clustering pipelines (LDA/NMF + sentiment consensus) to reveal actionable trends for social impact; engineered 10+ professional visuals.

Projects

ScholarEase — Scholarship Platform (Concept) - PPT Oct 2025 – Present
Figma, PowerPoint

- Researched the scholarship access gap in India; formulated ScholarEase concept and pitch deck bridging fragmented funding opportunities for students via a centralized model.
- Validated core challenges of awareness, digital divide, bureaucratic processes through peer interviews and surveys; mapped problem space with policy relevance for underserved youth.
- Designed solution workflows, user journeys, and feature outlines; presented proposal for early-stage feedback and college incubation consideration.

Student Exam Performance Prediction - GitHub Jan 2025
Python, Flask, scikit-learn, XGBoost

- Developed a robust ML pipeline for predicting student exam performance with 80% accuracy, leveraging advanced feature engineering and model selection.
- Performed exploratory data analysis and built reproducible workflows using scikit-learn and XGBoost.
- Presented project results to academic stakeholders; enhanced understanding of key drivers influencing academic outcomes.

Technical Skills

Programming: Python, SQL

Data Science & Analytics: R, scikit-learn, pandas, NumPy, Anaconda, Jupyter

Visualization: Tableau, PowerBI, matplotlib, seaborn

Methodologies: Data Cleaning, ETL pipelines, Agile/SDLC

Certifications

Business Intelligence & Analytics (NPTEL) – Certificate

Data Analytics with Python (NPTEL) – Certificate

Education

SIES College of Management Studies (SIESCOMS) Navi Mumbai, India
Master of Computer Applications (MCA), CGPA: 7.94 / 10 *Aug 2024 – Jun 2026 (Expected)*

SIES College of Arts, Science and Commerce Navi Mumbai, India
B.Sc. Computer Science, CGPA: 8.87 / 10 *Aug 2021 – May 2024*

Interests

- **Data Science, Data Analytics, Machine Learning, Artificial Intelligence**
